## §416.919b

reports, but also the disability interview form containing your allegations as well as other pertinent evidence in your file.

- (2) When we purchase a consultative examination, we will use the report from the consultative examination to try to resolve a conflict or ambiguity if one exists. We will also use a consultative examination to secure needed medical evidence the file does not contain such as clinical findings, laboratory tests, a diagnosis or prognosis necessary for decision.
- (b) Situations requiring a consultative examination. A consultative examination may be purchased when the evidence as a whole, both medical and nonmedical, is not sufficient to support a decision on your claim. Other situations, including but not limited to the situations listed below, will normally require a consultative examination:
- (1) The additional evidence needed is not contained in the records of your medical sources;
- (2) The evidence that may have been available from your treating or other medical sources cannot be obtained for reasons beyond your control, such as death or noncooperation of a medical source:
- (3) Highly technical or specialized medical evidence that we need is not available from your treating or other medical sources:
- (4) A conflict, inconsistency, ambiguity or insufficiency in the evidence must be resolved, and we are unable to do so by recontacting your medical source; or
- (5) There is an indication of a change in your condition that is likely to affect your ability to work, or, if you are a child, your functioning, but the current severity of your impairment is not established.

## § 416.919b When we will not purchase a consultative examination.

We will not purchase a consultative examination in situations including, but not limited to, the following situations:

- (a) When any issues about your actual performance of substantial gainful activity have not been resolved:
- (b) When you do not meet all of the nondisability requirements.

[56 FR 36965, Aug. 1, 1991]

STANDARDS FOR THE TYPE OF REFERRAL AND FOR REPORT CONTENT

## §416.919f Type of purchased examinations.

We will purchase only the specific examinations and tests we need to make a determination in your claim. For example, we will not authorize a comprehensive medical examination when the only evidence we need is a special test, such as an X-ray, blood studies, or an electrocardiogram.

[56 FR 36965, Aug. 1, 1991]

## § 416.919g Who we will select to perform a consultative examination.

- (a) We will purchase a consultative examination only from a qualified medical source. The medical source may be your own physician or psychologist, or another source. If you are a child, the medical source we choose may be a pediatrician. For a more complete list of medical sources, see § 416.913.
- (b) By "qualified," we mean that the medical source must be currently licensed in the State and have the training and experience to perform the type of examination or test we will request; the medical source must not be barred from participation in our programs under the provisions of §416.903a. The medical source must also have the equipment required to provide an adequate assessment and record of the existence and level of severity of your alleged impairments.
- (c) The medical source we choose may use support staff to help perform the consultative examination. Any such support staff (e.g., X-ray technician, nurse) must meet appropriate licensing or certification requirements of the State. See §416.903a.
